Title:

THE D-WEB

Thus was their system of control in the early 21st Century. An inescapable enslavement matrix built on debt and neo-feudalistic ideology. A system reliant on blackmail and secret oaths to sustain itself, addicted to unspeakable sins. This model proved both self destructive and unsustainable. Lucifers Kingdom was destined to fall...

A coup d'état was organized and carried out from 2016 onwards to end, once and for all, the Holy Roman Empire that had hindered the progress of humanity by hundreds of years. The bureaucracies and propaganda machines crumbled as Humanity awakened to see the wool that had been pulled over its eyes for the better part of 4000 years.

The D-Web is the most simplified variant of the Q-Web to date. It presents a summary of humanity's hidden history, from ancient Babylon to the modern-day New World Order. The information takes the form of an eagle holding a fasces, a Roman symbol of power and jurisdiction, which can also be found decorating the walls of the US Congress. The Deep State is ultimately controlled by the secret councils of noble bloodlines that descend from the Holy Roman Empire. This map is perfect for newbies, who are just beginning to understand the realm of conspiracies and secret societies.

This infographic is primarily focused on the Deep State & dark forces that have ruled our planet up until the present day. For a more balanced perspective, including information about the forces of Light destroying the old system, please refer to the original Q-KEY, GESARA Map, and the Maestro Map, available on our website in multiple printed and digital formats. Please share this artwork and our site to assist in propelling the Great Awakening of humanity, and ridding our world of the Satanic control system that has impeded our civilization from achieving its full potential. GODSPEED.
